#### SECTION II - PROJECT DESCRIPTION

4) Please describe the purpose and intent of the grant.

This grant will be used to directly pay for the necessities of providing science education and opportunities for learning for a public elementary school in Woodland Hills through the purchasing of science kits. The grant will benefit the children with opportunities for hands on learning and participation in a group science lesson using materials beyond computers and books. These science kits contain educational materials vital to learning science in an engaging manner, which is something all school children have missed due to the pandemic.

5) How will this grant be used to primarily support or serve a public purpose and benefit the public at-large. (Grants cannot be used as rewards or prizes for individuals)

This grant will greatly help in making sure that all students have access to high level and engaging science lessons to any student in our community. Our science education is free and many of our students' families cannot afford to help pay for necessities. This grant would help us meet the needs of our diverse community while providing an uplifting opportunity for children to connect and learn together even though they may not be in the same classroom.
