Item No. (5) PLUM Committee – Lauren Coffman, Chair
(20-089) Case No. ZA-2020-1639 Rib Ranch Barbecue Restaurant
4923 Topanga Canyon Blvd., Woodland Hills, CA 91364

Discussion and Possible action:

MOTION:

As pertaining to Case ZA-2020-1639, having held four public PLUM teleconference meetings for the application to renew the Conditional Use Permit to serve beer and wine on-site, request 2 variances regarding parking issues, change of use of a portion of the interior space from retail to restaurant use, and expand the building at the rear by approximately 5.5 feet to enlarge the prep. area and add a new storage and refrigeration room in an existing bone fide restaurant located at 4923 Topanga Canyon Boulevard. Woodland Hills, the Planning, Land Use and Mobility Committee hereby finds that:

WHEREAS, the restaurant has been serving beer and wine for on-site consumption in accordance with approved CUBs for at least 10 years, with no reported related negative incidents; and,

WHEREAS, the applicant has agreed to continue to comply with the conditions stated in the current CUB ZA-2014-2731-CUB, with additional operating hours to include breakfast daily from 8:00 am. to 11:30 am., which can result in some additional traffic and street parking during those times; and,

WHEREAS, the applicant is requesting to reclassify the rear dining room portion of the building from a long existing retail designation to restaurant designation to be consistent with current use. This maintains not only the needed balance between interior restaurant floor area and the floor area of the exterior patio, but also triggers the requirement to provide more on-site parking spaces than are currently available. The restaurant is unlikely to survive without the use designation change; and,

WHEREAS, the applicant is proposing to extend the rear of the building by approximately 5.5 feet adding 251.7 sq ft new area to the existing unapproved 180 sq ft. to accommodate an enlarged prep. area and a new storage and refrigeration room. An on-site review revealed the need for the additional space for more efficient and safer operation of the restaurant, and that there will be no impact to the parking area; and,

WHEREAS, at the conclusion of the changes to the building and space reclassification, the seating capacity of the interior rear dining area and the remaining patio will be unchanged. However 4 dining spaces will be removed from the interior front dining area which will be converted to a reception area, and the small front patio will be converted to a waiting area with limited seats and no dining; and,

WHEREAS, the applicant plans to make adjustments to the facility for ADA compliance and to add one handicapped parking space for ADA compliance, leaving an additional 2 tandem spaces plus 4 bicycle spaces (equal to 1 auto space); and,

WHEREAS, the applicant, unable to find suitable alternatives to long existing insufficient on-site parking spaces and alternatives to vehicles backing from the parking lot on to a public street, is requesting variances for those items; and,

WHEREAS, the applicant has agreed to continue conducting all barbecue cooking activities inside the facility and to add a scrubber to the exhaust to minimize the amount of contaminants exiting to the outside; and,

WHEREAS, applicant surveys of surrounding neighbors confirmed, by signed letters, support for the planned changes to the facility and restaurant operation.

THEREFORE, IT IS HEREBY RESOLVED, that for the findings and conditions stated herein:

The PLUM Committee ***supports*** renewal of the existing CUB for serving beer and wine on-site with increase in hours of operation for breakfast; and,

The PLUM Committee ***supports*** changing the former retail designated portion of the building to restaurant use, including variances for insufficient on-site parking spaces and vehicles backing onto a public street; and,

The PLUM Committee ***does not support*** enlarging the unapproved 180 sq ft. prep. area, adding a storage and refrigeration room, for a total of 431.7 sq ft. additional space for restaurant use.

Conditions:

- 1) All plans presented on November 10, 2020 at the Board Meeting of the Woodland Hills –Warner Center Neighborhood Council (WHWCNC) shall be dated as such and re-submitted to Planning as an (updated) project application submittal.
- 2) The applicant will not submit any significant, further plans without first presenting them to the WHWCNC for support.
- 3) Any further modifications to the site plan, elevation(s) and architecture will be presented to the WHWCNC for support before submitting them to City Planning.

FURTHERMORE, The Planning, Land Use and Mobility Committee recommends that the Board of the Woodland Hills-Warner Center Neighborhood Council advise the City of Los Angeles Planning Department and Council District 3 Councilmember Bob Blumenfield of its findings, and its subsequent recommendation to receive only partial support for this application as presented on December 9, 2020.

Item No. (6) PLUM Committee – Lauren Coffman, Chair
(20-090) Case No. ZA-2017-84 New home construction
4798 N. Abargo, Woodland Hills, CA 91364

Discussion and Possible action:

MOTION:

As pertaining to ZA-2017-841 a proposed residence at 4798 N. Abargo Street Woodland Hills, CA 91364, having held Five (5) public meetings for the application filed by the property applicant Carol Chan, concerning the new construction, use & maintenance of a proposed one family dwelling of 1,300 sq. ft. with one covered parking space; and,

Whereas, the property is a substandard lot of only 2,500 SF in the Girard Tract and fronts on the un-vacated part of Abargo Street; and

Whereas, the project applicant is requesting a Zoning Administrator's Determination for:

- 1) The construction of a SFR to abut an existing roadway of less than 20 feet;
- 2) The construction of a SFR on a roadway of less than 20 feet which will not be improved by the applicant;
- 3) Relief from the BHO requirement of a minimum 5' front yard setback in exchange for a zero front yard setback and
- 4) Approval of compliance with the Girard Tract Specific Plan even though not complying with the parking requirement; and

Whereas, the 1,300 SF single family residence proposed is requesting the following **Variances**:

- 5) Relief from the BHO requirement of 24 ft in height within the first 20 feet measured from the centerline of the roadway, and instead allow a height of 45 feet, which in this case, would be measured from the non-vacated portion of Abargo;
- 6) Relief from the BHO limitation of the envelope Height of 33 feet and stepped back massing shape determined by the Projecting Plane, and Relief from the BHO limitation of an overall building height of 33 feet measured from the lowest finished or natural grade;
- 7) Relief from the Girard Tract Specific Plan requirement of a minimum of two covered on-site parking spaces in exchange for one onsite covered parking space and one tandem driveway space; and

Whereas, the ONLY pedestrian access from the garage to the entry deck is via the main entry stair located in the city owned non-vacated portion of Arable Street and whose construction will require a revocable permit from Public Works, and

Whereas, the proposed structure is located on the rear portion of the property and the second story does not step back from the first story and therefore overlooks the east neighbor's back yard,

Therefore the PLUM committee, with respect to the **Zoning Administrator's Determination** items, ***supports in part*** the applicants request for relief for items 1, 2, and 4, and ***denies in part*** the applicant's request of item 3 which is relief from a minimum 5' front yard setback in exchange for a zero front yard setback.

And, the PLUM committee, with respect to the **Variance** items, ***supports in part*** the applicant's request for relief for item 7, one covered on-site parking space, and ***denies in part*** the applicant's request of relief for items 5 and 6, which address the limitation of building height in a hillside area.

Conditions:

- 1) The PLUM committee strongly encourages the applicant to have the Abargo Street vacated or the main front entry stair redesigned to not be located in the non-vacated area of Abargo Street. The PLUM committee does not support the requirement of a revocable permit for the main entry into the residence.
- 2) All plans presented on at the Board Meeting of the Woodland Hills –Warner Center Neighborhood Council (WHWCNC) on October 15, 2020 shall be dated as such and resubmitted to Planning as an (updated) project application submittal.
- 3) Additionally, all conditions herein shall be printed on the Project Summary page as a commitment to and acceptance of these conditions.
- 4) The applicant and owner will not submit any significant further updated plans or changes without first presenting them to the WHWCNC for support.
- 5) The Applicant shall provide traffic control and flaggers and post signs whenever there are materials deliveries or when hauling dirt, pouring concrete or conducting work that will disrupt traffic flow for more than 5 minutes. All equipment remaining on-site shall be stored in the onsite parking area.
- 6) The applicant will submit a drainage plan for the site detailing how they are going to collect roof drainage on the property and specify if they have LID planters

Therefore, it is hereby resolved that the Planning, Land Use and Mobility Committee, for the findings stated herein, recommends that the Board of the Woodland Hills-Warner Center Neighborhood Council advise the Los Angeles Department of City Planning and Council District 3 Councilmember Bob Blumenfield that the project has **received support in part and denial in part** on the above specified items from the Board of the Woodland Hills-Warner Center Neighborhood Council for the requested action at the Full Board meeting on December 9, 2020.

(Committee Meeting Input: Applicant Carol Chan commented on the motion. Public Comment was received from 1 stakeholder who opposed the project.)
