We currently have (4) open board seats on the Board. Should those seats be filled, new committees may be created to allow for newly appointed board members and current board member committee participation.

The City requests that NC's have advocates for various City committees. A list of advocate positions will be provided prior to the September Board Meeting. Board members who would like to serve in a City advocate committee position, should review the list, and notify the Officers. Being an advocate may require that you attend meetings at various City locations outside of Woodland Hills, often in or near downtown Los Angeles during business hours or in the evening. Advocate positions must be approved and voted on by the Board.
